

ADR LAB8050

AUTOMATIC LABELLER FOR BOTTLES, JARS & ROUND CONTAINERS

FEATURES:

- Automatic tabletop labeller
- Supports cylindrical products
- Internal „Easy to use“ controller
- 4 speed modes available
- Precise labeling result
- 5 lots memory module
- Smart label length setting
- Missing label set
- Infeed & outfeed table option
- Hot Foil printer option

The LAB8050 is a fully automatic label applicator for cylindrical products. You can label bottles, jars or other round-shaped products with this system. The tabletop unit is easy to setup and the user can work with the internal controller to operate it. The unit can be loaded & unloaded with products manually or you can use the optional feeding and collecting table (600mm diameter). Furthermore you can integrate the optional hotfoil printer to print EXP dates, LOT numbers or other letters into the label before labelling. If you want to label your products fast, easy and accurate the LAB8050 is the right solution for your business.
